

Mech, All a bed dream

Hey get it on drunk and stoned,
What I mean is that I have a little something to say.
Don't feel alone it's all right I ain't gone,
Gonna keep You a little company.
You better be thanking me, You better be
'Cause You won't remember yesterday'
Ain't gonna lie about it...
I know You'll wake tomorrow,
Or maybe it's today.
Sometimes I feel Your sorrow,
In the twilight haze.
Hey bite the bone 'm alive when You're gone,
Gonna live a little wilder today.
Something is wrong in my head I am dead
In reality? honestly?
Makes me insane, what a shame! What a shame!
To be running wild without my feet...
Ain't gonna lie about it...
I know You'll wake tomorrow,
Or maybe it's today.
Sometimes I feel Your sorrow,
In the twilight haze.
You can say You don't know me,
Make me go away.
Everytime You drive me crazy,
I can feel Your pain...
