

Medeiros Glenn, Fallin'

I was alone and I've been thinkin'
How love has taken its toll on me
I opened my heart and was cheated again
Then you walked in
Last thing I needed was to fall for another
But I got this feelin' you can make me forget
One night can leave you broken hearted
Too late now I've already started

CHORUS

Fallin'

And deeper I go the more I'm believing

But my heart needs to know

I'm fallin'

And maybe this time I can hold on to love

'Cause I want it enough can't you see that

I'm fallin'

Forever and always that's the promise she made

Only words that will soon fade away

And I believed her but never again

That's what I said

Last thing I needed was to fall for another

But I got this feelin' you can make me forget

One night can leave you broken hearted

Too late now I've already started

CHORUS
