

Megadeth, Mechanix

Imagine you were at my station
And you brought your motor to me
You're a burner, yeah, a real motor car

Said you want to get your order filled
Made me shiver when I put it in
Pumping just won't do ya know luckily for you

Whoever thought you any better
At turning a screw than me, I do it for my life
Made my drive shaft crank, made my pistons bulge
Made my ball bearings melt from the heat

We were shifting hard when we took off
Put tonight all four on the floor
When we hit top end you know it feels so slow

Said you want to get your order filled
Made me shiver when I put it in
Pumping just won't do ya know luckily for you

Whoever thought you any better
At turning a screw than me, I do it for my life
Made my drive shaft crank, made my pistons bulge
Made my ball bearings melt from the heat

I'm giving you my room service
And you know it's more than enough
Oh, one more time you know I'm in love

Said you want to get your order filled
Made me shiver when I put it in
Pumping just won't do ya know luckily for you

Whoever thought you any better
At turning a screw than me, I do it for my life, fuck yeah
Made my drive shaft crank, made my pistons bulge
Made my ball bearings melt from the heat, oh yeah
