

# Megadeth, Never Walk Alone... A Call To Arms

Hiding in any doorway  
In any shadow  
Any place where danger waits to kill my time  
There is one who lies and waits  
To seal your fate  
As sure as you live and die

Live and die  
Live and die

When you feel there's something wrong  
I shelter you and keep you warm  
I never let you walk alone  
I loved you when you still hated me  
I'm coming and I won't be long  
Time to reap what I have sown  
Never ever let you walk alone  
I know your enemy once was me

(solo - Glen)

Let me wrap my arms all around you  
Suffer the trespasses that you made  
I will drink your pain away  
Forever and a day  
If you just call out my name

If you just call  
Out my name

If you just call  
Even whisper it

When you feel there's something wrong  
I shelter you and keep you warm  
I never let you walk alone  
I loved you when you still hated me  
I'm coming and I won't be long  
It's time to reap what I have sown  
Never ever let you walk alone  
I know your enemy once was me

Never ever let you walk alone  
I know your enemy once was me
