

Megadeth, Set The World Afire

Red flash clouds choking out the morning sky
They said it'd never come, we knew it was a lie
All forms of life die now the humans all succumb
Time to kiss your ass goodbye the end has just begun

Distorted figures walk the street, it's 1989
Weeds once underneath your feet have grown to vines
Bodies melted like a candle, a land without a face
No time to change your fate, no time left, it's too late

The arsenal of Megadeth can't be rid they said
And if it comes, the living will envy the dead
Racing for power, and all come in last
No winning first stone cast
This falsehood worldly peace
It's treaties soon will cease
No one will be left to prove that humans existed
Maybe soon the children will be born open fisted
We all live on one planet it will all go up in smoke

Too bad they couldn't see this lethal energy
And now the final scene, a global darkening

Dig deep the piles of rubble and ruins
Towering overhead both far and wide
There's unknown tools for World War III
Einstein said "We'll use rocks on the other side"

No survivors set the world afire
