

Megadeth, The Doctor Is Calling

The doctor is calling

Something's gone wrong
Nowhere do I belong
I listen to the voices in the dark room

Something's going down
But I can't make a sound
Looking past the bars of my mind

The coat of arms falling
I hear the doctor calling
The family crest is falling
I hear the doctor calling

Always sharing trips
Remove me from your lips
Sight and mind still and never go away

One too many tantrums
Deviated symptoms
Better lock the phantom away

The coat of arms falling
I hear the doctor calling
The family crest is falling
I hear the doctor calling
I see the chalkline crawling
I hear the doctor calling me away

This place is my home
My mind still runs free
The doctor's prescription
Less for you and more for me

The coat of arms falling
I hear the doctor calling
The family crest is falling
I hear the doctor calling
I see the chalkline crawling
I hear the doctor calling me away
A merciful embalming
I hear the doctor calling me away
