

Megan McCauley, Wrong Way Out

Face down,
I'll be 'till I don't know when
But supposing now,
You let me choose again

Hands tied,
Couldn't tell you where I've been
I let the whole thing slide,
Think I could have saved it then

Instead I took the wrong way out
I didn't know wrong until now
I can only see, what I'm meant to see
When it comes round
Instead of breakin' myself down
I took the wrong way out
I took the wrong way out

Faint lines
Marking out another day,
I concede that I,
Just started panicking

In flight
Couldn't think of what to say
Now I know that I,
I should've tried anyway

Instead I took the wrong way out
I didn't know wrong until now
I can only see, what I'm meant to see
When it comes round
Instead of breakin' myself down
I took the wrong way out
I took the wrong way out

I can't take another day, livin' with this weight
Of knowin' that I put space between me and you
So I'll wait for a break for an opening
You might let me get back through

Instead I took the wrong way out
I didn't know wrong until now
I can only see, what I'm meant to see
When it comes round
Instead of breakin' myself down
I took the wrong way out
I took the wrong way out

I know I know I know
I know I know I know
I took the wrong way,
I took the wrong way out

La da da dat da dat da
La da da dat da dat da
(I-I-I) I took the wrong way out

La da da dat da dat da
La da da dat da dat da
