

Meghan Trainor, Dance About It

Why talk when we could dance about it?
Shut up and put your arms around me
Won't you put on my favorite song
Pretend nobody's wrong
Skip the fighting for the night and get it on

Why talk when we can (Dance)
Be dancin' about it (Dance)
Let's forget about it, about it
Be dancin' about it
Skip the fighting for the night and get it on

Change your tone, babe
Be careful what you say to me (What you say to me)
'Cause that bullshit don't sit right with me (It ain't right with me)
And tonight you might be cold (So cold)
A Cali king bed on your own (On your own)
All alone

And I don't wanna have to forgive you
Don't say sorry, I know you didn't mean to
Yeah, it can wait
'Cause it's getting late
What if you made a move on me

Why talk when we can dance about it?
Shut up and put your arms around me
Won't you put on my favorite song?
Pretend nobody's wrong
Skip the fighting for the night and get it on

Why talk when we can (Dance)
Be dancin' about it (Dance)
Let's forget about it, about it
Be dancin' about it
Skip the fighting for the night and get it on

Why you wanna talk when I wanna dance? (Uh, huh)
Spin me 'round while you hold my hand (Uh, huh)
You just keep bugging me (Keep bugging me)
When you could be lovin' me
I'm givin' you the green light, baby go
And tonight you won't be cold
In your Cali king bed on your own
All alone

And I don't wanna have to forgive you
Don't say sorry, I know you didn't mean to
Yeah, it can wait
'Cause it's getting late
What if you made a move on me?

Why talk when we can dance about it? (Uh)
Shut up and put your arms around me
Won't you put on my favorite song?
Pretend nobody's wrong
Skip the fighting for the night and get it on

Why talk when we can (Dance)
Be dancin' about it
Let's forget about it, about it
Be dancin' about it
Skip the fighting for the night and get it on

Let's get it on now
