

# Meja, My Best Friend

My best friend is myself  
I don't need nobody else  
to be there for me  
care for me, and for my  
best time is to be all alone  
and just sit  
thinking I'm in love with me

You might see a girl unhappy  
but I could be a shining star  
Feeling free in all my loneliness  
You can always be my friend  
but you can never be the one

My best friend is myself  
I don't need nobody else  
to be there for me  
care for me, and for my  
best time is to be all alone  
and just sit  
thinking I'm in love with me

Heaven knows that life is magic  
Heaven knows I'm not alone  
I can see how you relate to me  
You say you wanna be my friend  
so maybe you can be the one

My best friend is myself  
I don't need nobody else  
to be there for me  
care for me, and for my  
best time is to be all alone  
and just sit  
thinking I'm in love with me

So they say that I'm not laughing  
well I do, I smile within  
You're the only one to see through me  
So if you wanna be my friend  
I think that you can be the one
