

# Meja, Under The Sun

Looking back at history  
youe not different than the rest  
If you think your life a misery  
you better stand the test  
You think youe in control  
of all the good things you possess  
but youe technical and cold  
and you look just like a mess

You see the picture  
youe having fun  
but the adventure just has begun  
Nothing is new under the sun

Nothing is new  
under the sun  
Nothing is new  
under the sun  
under the sun

The pattern is repeated  
in the common things we find  
inventions have been made  
but wee so limited in our minds  
We think we have expanded  
but DNA has got the plan  
We find the right solution  
the day we understand

You see the picture  
well, I turned it on  
and the adventure just has begun  
Nothing is new under the sun

Chorus
