

# Mekong Delta, Beyond The Gates

Time - passing as the world changed it's face  
Past - all that used to be not a trace  
Now - all that was is gone can't you see

Always questions

What - happened to our world different now  
Why - answers can't be found tell me how  
Now - dissolution is all I see

As I meandered this world I saw strange faces  
I've seen some gastly bizarre phenomenon  
Such desolation and pain I can't describe it  
But always something was there that led me on

Never saw place like this  
How can such a place exist  
Brotherhood of happiness  
Inviting me I can't resist  
How can such a thing exist  
Inviting me I can't resist  
Brotherhood of happiness  
Never saw place like this  
Never saw a...

The priests gave us reason  
Brought hope to our season  
They gave us the will to servive  
It's healthy and clean here  
It's just like a dream here  
Just thank the priests you're alive

I had a vision - then it was gone  
Something there I just can't put my finger on

Crys - from the other side calling me  
Lies - message from beyond curse the priests  
Why - I don't understand  
Share the feast

Cataclismic

Dark - figures in the midst help denied  
Death - tightening it's fist no reply  
Rage - tell me what is this paradox

And as the people all dance in celebration  
They seem so happy and so preoccupied  
Somehow I don't understand this fascination  
I think it all will be clear when I'm inside

Where did all these priests come from  
What kind of men have you become  
Serve and never question why  
Worship Talons from the sky  
What lies beyond the golden gate  
A journey of uncertain fate  
Serve and never question why  
Serve and never question why  
Question why

It's nicer that nice here  
A real paradise here  
It's really too good to believe

There's growing in knowing  
And that's where I'm going  
The gates are prepared to receive,  
Receive - me
