

Mel C, Let's Love

Now that we're here
We're on our own
Tell me your secrets
Cut to the bone
Baby you're vicious
But baby you're mine
Golden delicious
Two of a kind

All roads lead, all roads lead
All roads lead to one thing
My heart bleeds, your heart needs
My heart bleeds for one thing

Sugar let's go
Let's roll out of control
Baby, let's love
Let's love

Plane's on the runway
Ready to fly
Said it was over
Baby I lied
Nobody loves you
Loves you like I do
Nobody could
'cos baby you're mine

All roads lead, all roads lead
All roads lead to one thing
My heart bleeds, your heart needs
My heart bleeds for one thing

Sugar let's go
Let's roll out of control
Baby, let's love
Let's love

Let's go
Let's roll out of control
Baby, let's love
Baby, let's love
Love
Let's go
Let's roll out of control
Baby, let's love
Let's love
Let's go
Let's roll out of control
Baby, let's love
Let's love
