

Mel Tillis, No Love Have I

Honey bee loves the honey chickadee loves the sky
Everybody loves somebody but no love have I no love have I
Standing on the corner lovers pass me by
How my heart is crying cause no love have I no love have I
Every night in my prayers I pray for some lost love to come my way
Then we'll spend our lonely hours making love in an ivory tower
Lonely is the city when the moon lights up the sky
But what good is that moonlight if no love have I no love have I
Every night in my prayers I pray...
