Stand beside me behind me so loneliness can't find me
I need your love to make it from now on
Stand before me and with me so sorrow's hand can't touch me
Without your love I know I won't last long
I'm reaching out my soul to you my heart my hand my all for you
My only prayer is just that you will always reach for me
Stand beside me behind me so loneliness can't find me
Without your love I know I won't last long
I'm reaching out my soul to you...
