

# Melanie C, Never Say Never

You say never say never baby

Does it make you feel like everything's alright?

I say why all of your fantasising

Who am I to burst your bubble

If it's all ya got to get you through another night

It's hard moving on

You gotta draw the line

The feeling never comes back when it's gone

That was then, this is now

No turning back, no second time around

You're like a stuck record going round, round, round

You turn me off just gotta turn you down

So try to get it into your brain

Don't you ever say, never say never again

Now you're beginning to patronise me

Acting like there's nothing you don't know

But wild horses couldn't drag me back and make me

Live the life I left behind

'Cos the fact is that I'm so much better on my own

It's hard moving on

You gotta draw the line

The feeling never comes back when it's gone

That was then, this is now

No turning back, no second time around

You're like a stuck record going round, round, round

You turn me off just gotta turn you down

So try to get it into your brain

Don't you ever say, never say never

Like a stuck record going round, round, round  
You turn me off just gotta turn you down  
So tired and it's always the same  
Don't you ever say never say never say never again

I never thought that I would overcome the pain  
I'd have to be a fool to go back there again

Like a stuck record going round, round, round  
You turn me off just gotta turn you down  
So try to get it into your brain  
Don't you ever say, never say never

Like a stuck record going round, round, round  
You turn me off just gotta turn you down  
So tired and it's always the same  
Don't you ever say never say never say never again
