

Melissa Etheridge, Love Me

You stop and go
First you say yes and then you say you said no
I'm, I'm sitting on your stair
Waiting for a sign to let me know you care
Baby love me
Baby love me
Baby love me
Baby love me

She likes to drive your car
Till she treats you like a stranger
You pretend that you are
I'm sitting here at home
Getting confirmation on the telephone
Baby love me
Baby love me
Baby love me
Baby love me

I'm looking at you
But she's getting all of your eyes
She's found somebody new who doesn't care to see her disguise
Don't you see
It's such a sad sad situation comedy
Baby love me
Baby love me
Baby love me
Baby love me

You stop and go
First you say yes and then you say you said no
I'm sitting up all night
Sending out a message to you satellite
Baby love me
Baby love me
Baby love me
Baby, baby love me
Oh it'd be so easy just to love me
Love me, love me, love me
So baby...
