

# Melodifestivalen, Itchycoo - Super Mega Nova

Now is the time and the place  
Now I am ready to race the highway near or far  
To become a star  
There's nothing I wouldn't do  
I'm riding naked on a bike to the zoo  
I'll crash my fathers car  
To become a star

I'll share my deepest secrets  
I'll give my soul away for just one day

I'm the one you want to marry  
See my face and know my name  
I am not just anybody  
I am special not the same as you  
And before I am over  
I'll be a Super Mega Nova

Now is the time to erase  
I'm gonna buy a new face to show that I'll go far  
To become a star

I'll share my deepest secrets  
I'll give my soul away for just one day

I'm the one you want to marry  
See my face and know my name  
I am not just anybody  
I am special not the same as you  
And before I am over  
I'll be a Super Mega Nova

What's gonna happen today  
I guess I got a bit carried away maybe I went to far  
To become star

I'm the one you want to marry  
See my face and know my name  
I am not just anybody  
I am special not the same as you  
And before I am over  
I'll be a Super Mega Nova
