

# Melodyssey, S.H.I.

Now I see in different directions  
Misguides the twisted perceptions  
Sit back and watch it all go by  
Took to it with your keys  
Your on your own with your disease  
Sit back and watch it all go by

Why not take me away from here  
Bow down to it cause you'll never be better  
Than you were before

I made a mistake think I'll break but I won't  
Because these fuckers you hate throw there sticks and there stones  
But your not breakin my bones cause I'm strong in the head  
Fuck off and die bitch smoke me instead

I'll be ashamed

Implosion  
No no no no fucking way
