

Mercy Drive, Dead Horse

Go ahead my friend again it's all a game for you
So go deny it
How you've succumb to glut, model of what not to do
Now realize it

Turn out my light if I give too long
Turn out my light if I don't see you care
Turn out my light if I give too long
Turn out my light if I don't see you care

I'm wearing thin as you pretend and I keep holding in
Still you deny it
From my conerns I've learned, tables have turned, now you lose
Now realize it

Turn out my light if I give too long
Turn out my light if I don't see you care
Turn out my light if I give too long
Turn out my light if I don't see you care

Turn around again
Turn around it's not enough to start again
Not enough to start again

Turn out my light if I give too long
Turn out my light if I don't see you care
Turn out my light if I give too long
Turn out my light if I don't see you care

Turn out my...
Turn out my...
Turn out my...
Turn out my light
Turn out my light
Turn out my light
Turn out my...
Turn out my...
