

Mercy Drive, Promise

To me-Another lie

Cause lies are what you're made of

Amuse me-To think that I cant see through what you've become

Now we'll make you a promise

I will promise you

Time will remember and time will find you

And time will turn around everything you've done

You will bend in the end

So now the problem here

Is me or so you say

Distractions-Your way to avoid

The blame that you wont take

And I will make you a promise

I will promise you

Time will remember and time will find you

And time will turn around everything you've done

You will bend in the end

Time will remember and time will find you

And time will turn around everything you've done

You will bend in the end

Time will remember and time will find you

And time will turn around everything you've done

You will burn out in the end
