

# Mercy Fall, I Got Life

Watching you feeling more  
Breaking through an open door  
Bring your rage  
What to gain  
All you ever bought was pain

I got life  
I got mine  
I've got family  
I got time  
I've got hands to make it right  
And I've got love  
And I will survive

(chorus)  
Well I've got anger  
And it's in my soul  
Well I've got rage  
But I've got control  
Well I've got patience  
But you're on my toes  
You light my fire  
Now see me grow

Anger strike  
Weakened heart  
Healing is our only part  
Back to one  
What you've begun  
Love might be our strongest gun

Like the rain our hope is falling  
But with the sun comes a brand new day
