## Mercyful Fate, On A Night Of Full Moon

Stay away I am evil Or you will die by tomorrow Copulation with a body of woman recently dead My ceremonies with all the corpses Finding souls so to unlock the coffins It's a desecration of souls in their holy lair Magic circles drawn after midnight Around graves to be opened I'll use a wand and bodies rise I'll ask the questions and I'll burn the remains It's a desecration of souls in their holy lair Oh this sacrifice I've been searching on the night of full moon Copulation with a body of woman recently dead My ceremonies with all the corpses Finding souls so to unlock the coffins It's a desecration of souls in their holy lair Oh this sacrifice I've been searching on the night of full moon
