

# Mercyful Fate, Shadows

(Music & lyrics by King Diamond)

When the darkness eats away the  
day  
And the moon bears witness to the  
graves

In the shadows we are alive  
In the shadows, The Light

Can you see the ghosts above our  
heads?  
We are all in there with the dead

In the shadows we are alive  
In the shadows, The Light

Solo: Shermann

In the darkness there is no holding  
back  
There is no gold in black  
Deep in the night  
Everything is clear  
Clearer than daylight

In the land of mystery we share  
You can come along if you dare

In the shadows we are alive  
In the shadows, The Light

Solo: Denner

We are hiding in the shadows on  
your wall  
We are watching as you kiss your  
little doll  
When the darkness leaves the night  
We cannot see The Light no more  
No more  
We are always in the shadows by  
your door  
But when the darkness leaves the night  
We cannot see The Light no more  
No more

There is no holding back  
There is no gold in black  
Deep in the night  
Everything is clear  
Clearer than daylight

Solo: Denner  
Solo: Shermann
