

# Meredith Brooks, My Little Town

We lock the doors at night  
All the sirens scream  
I don't drive my car  
Insurance is too high

I live here in the city  
My hometown's far away  
I workout with concrete  
I don't drive my car

The stars come out at night  
You see them on the strip  
Everybody arms themselves  
There's no other place like this

I'll never leave this  
Small town girl behind  
The place where I come from  
Is with me all the time

Oh, you could walk the streets  
When the sun goes down  
In my little town  
You don't need defenses  
When the sun goes down  
In my little town

Back home on the street  
After 10 at night  
Mrs. Avery walks her dog  
Checks to see what's going on  
She doesn't lock the door  
She lives here in good health  
You don't hear the horn  
When Mrs. Avery walks her dog

All I ever wanted  
Was a view of city lights  
Break away from here  
Leave behind the quiet nights  
Spend half your life  
Trying to make a change  
Then the other half  
Trying to get back again

Oh, you could walk the streets  
When the sun goes down  
In my little town  
You don't need defenses  
When the sun goes down  
In my little town

Look down the road  
Look at the highway  
Look past the fences  
Look at the faces  
What do you have on the other side?

Oh, you could walk the streets  
When the sun goes down  
In my little town  
You don't need defenses  
When the sun goes down  
In my my town

You could walk the streets  
When the sun goes down  
In my little town  
You don't need defenses  
In my little town where I come from  
In my little town you don't need a gun  
In my little town where I come from  
In my little town
