

# Meredith Brooks, See It Through My Eyes

It's after midnight again  
And we sleep in separate rooms  
Wondering what went wrong  
I know we tried to talk about  
What it takes to talk things out  
But we just go on and on

[Chorus:]

Baby, if you'd see it just once through my eyes  
Maybe then we'd have a further chance to survive  
Oh, baby if you'd see it just once through my eyes

I often think about the times  
The world was yours and mine  
All the things we should have done  
And when I see it through your eyes  
You know I start to cry  
Please don't let me be the only one

[Chorus]

Oh, baby can't you see  
I'm trying to give what you say to me  
But you know  
It's a two-way street

[Repeat chorus]
