

# Meredith Brooks, Your Name

You're everywhere I walk  
I don't remember if I smiled  
I don't think we talked  
But you always hung around a while  
And I don't know your name  
Yeah I think that you were tall  
I don't remember if I was ever nice to you at all

Chorus

Suddenly you come undone  
You tell me I'm the only one  
You hold my head up with a gun  
And tell me that we are in love  
You touch me and you want the same  
I close my eyes and start to pray  
And tell you I will be the way  
You want if you will only say your name

You wrote me everyday  
I never knew that it was you  
I just threw it all away  
I didn't know what else to do  
Jesus told you to find me  
And never ever let me go  
And we would be so happy  
He promised you that I would know

Chorus

I am sorry - so sorry oh  
I am sorry Jesus forgot to tell me

I see that you are crying  
I know you only meant to be with me  
Maybe I was hasty  
I should have listened more carefully  
Please tell me it's not too late  
Your decision has been made  
Before you pull the trigger  
Please won't you tell me your name?

Chorus
