

Merle Haggard, If You See My Baby

IF YOU SEE MY BABY
(Eddie Miller - Bob Morris)
'61 Jat Music

If you see my baby while making your rounds
In some crowded nightspot or cafe in town
Tell her I miss her and I'm still around
If you see my baby in this lonesome old town
Tell her to call me when she's all alone
Cause I'm always waitin' by my telephone
I'd still worship the ground where she walks around
If you see my baby in this lonesome old town
Tell her to call me...
