MY PAST IS PRESENT

(Merle Haggard - Wynn Stewart)

'67 Central Songs, BMI

The girl I love so much just walk in the door
My past is present but she's not mine anymore
That she stop by to hurt me or does she even know I'm here
My past is present it'd be that she still cares
For without her there's no future she's close yet far away
I keep hoping that my tomorrows we'll catch up with yesterday
For time has stopped my time has stopped since she went away
My past is present I just hope she's back to stay
For time has stopped...
