

Merril Bainbridge, Big Machine

It's a crime that I have truly tried and tested
It feels so good that I could get myself arrested
It's more for the pleasure and pain
When you're tied to a big machine
When you drop from an aeroplane
Go down in a submarine
Throw your arms around me
Caress me till I am clean
Love has finally found me
It's a big machine
It rains it pours and I think I'm getting wetter
I'm sure you saw that that I would get to know you better
I saw you jump from a speeding train
Go down in a submarine
I saw you jump from an aeroplane
Tied to a big machine
Throw your arms around me
Caress me till I am clean
Love has finally found me
It's a big machine
