

Mest, Opinions

One, Two, Three, Four

[VERSE:]

Frustrated with what's going on
I feel lost and I don't feel right

Tell me what I can do to make
Them happy, but then will I be happy

[CHORUS:]

I can't do wrong, I can't do right
I feel so alone tonight
I wish someone could feel
And understand the way I think
They got me on the brink
Of self destruction
I wish someone could feel

[VERSE:]

People surround me fill my head
With opinions of what they think is right

[CHORUS:]

I can't do wrong, I can't do right
I feel so alone tonight
I wish someone could feel
And understand the way I think
They got me on the brink
Of self destruction
I wish someone could feel

I can't do wrong I can't do right
I wonder where you are tonight
I wish that you were here
To understand the way I think
You know they got me on the brink
Of self destruction
I wish someone could feel
I wish someone could feel
