Metallica, Halo On Fire

Obey Obey

Come won't you stay

Sincere

Sincere

All ends in tears

Endure

Endure

Thoughts most impure

Concede

Concede

But both shall we bleed

Halo on fire

The midnight knows it well

Fast is desire

Creates another hell

I fear to turn on the light

For the darkness won't go away

Fast is desire

Turn out the light

Halo on fire

Allure

Allure

Sweetness obscure

Abide

Abide

Secrets inside

Deprive

Deprive

To feel so alive

Obey

Obey

Just don't turn away

Halo on fire

The midnight knows it well

Fast is desire

Creates another hell

I fear to turn on the light

For the darkness won't go away

Fast is desire

Turn out the light

Halo on fire

Prayers cannot get through

Return to sender

Unto which of you

Shall I surrender

Twisting in disguise Dark resurrection

Lighting up the skies

Wicked perfection

Too dark to sleep

Can't slip away

Open or close

My eyes betray Beyond the black

I won't you stay

Hello darkness Say goodbye
