

# MGMT, Grutu

\*\*\*I AM GUESSING AT THESE AND SOME ARE PROBABLY COMPLETELY WRONG\*\*\*  
yes you fail

Oh My God, i'm being born  
this is what the future holds  
one step in the right direction  
while there's no cure from infection  
see me dance in my little boots  
i wasn't born to follow the rules  
i never learned what a bottle was  
now i'm sucking on it just because

if you want to take a chance  
i feel for you, i feel for you  
but as it stands, as it stands

light that fuse, Girlfriend  
it's hopeless from the start  
dreams that never end  
begin to fall apart  
all my joy and pain  
will never equal love  
it's because, just because

hey, hey take a look at me now  
don't you wanna know about me now  
little baby is your worst fucking nightmare  
applesauce thrown outta my highchair  
you can't stop cause you're not allowed to  
you can't stop cause i told you not you  
you can't stop cause i just won't budge  
you can't stop baby just because

if you want to take a chance  
i feel for you, i feel for you  
but as it stands, as it stands

light that fuse, Girlfriend  
it's hopeless from the start  
dreams that never end  
begin to fall apart  
all my joy and pain  
will never equal love  
it's because, just because  
light that fuse, Girlfriend  
it's hopeless from the start  
dreams that never end  
begin to fall apart  
all my joy and pain  
will never equal love  
it's because, just because  
just because  
just because
