

Michael Bolton, Center Of My Heart

How do I begin to say
Words are not enough to show you how I really feel
And how the night is now just knowing you are here
I can show you night and day
I'll hold you till the end of all tomorrow disappear
Now it's all so clear
What a fool I would be, if I never let you in
Inside of me so faithfully, you stood by me

Chorus.....

It started with a leap of faith, it took me to a higher place
Though I wasn't ready to believe, you were there to reach inside of me
I thank for the love you gave, for every step along way
You taught me to believe again, baby, that's the hardest part
It's all because you took the journey
The journey to the center of my heart

Looking back I have to laugh,
Thinking how I walk the earth so proudly on my own
When deep down I was scared of being alone
Somewhere down that lonely path
You were there with love to follow
Anywhere I go, how did you know
That you could turn my world around
This place I never would have found,
Without you I would spend my life, afraid to fly

Chorus.....

It started with a leap of faith, it took me to a higher place
Though I wasn't ready to believe, you were there to reach inside of me
I thank for the love you gave, for every step along way
You taught me to believe again, baby, that's the hardest part
It's all because you took the journey
The journey to the center of my heart

What a fool I would have been, if I never let you in
Inside of me, so faithfully, you stood by me

Chorus.....

It started with a leap of faith, it took me to a higher place
Though I wasn't ready to believe, you were there to reach inside of me
I thank for the love you gave, for every step along way
You taught me to believe again, baby, that's the hardest part
It's all because you took the journey
The journey to the center of my heart
Every step that brought you to me,
And you knew you'd find the stars
On your journey to the center of my heart

I thank GOD you the journey to the center of my heart....mmmm
