

# Michael Bolton, Love Is The Power

Tell me how long, can we go on this way  
Just to be strong  
We talk through the night  
But never reach the other side  
We fill our lives  
With endless words, an aimless search

When all that we need, we hold within our hearts  
When will we find, our way out of the dark

## CHORUS

We know that  
Love is the power, love is the key  
Love is the reason, reason to believe  
Love is the answer, when we will see  
Love is the power, love is the power, we need

Look at our lives, look at this world we've made  
We close our eyes, and oh the price we pay  
We reach for the sky  
But never get beyond our pride

Fighting like fools  
This faithless game, is such a shame

When all that we need we hold within our hands  
Oh when will we find the faith to understand

## CHORUS

All that we need we hold within our hands  
Oh when will we find the faith to understand

## CHORUS
