

Michael Franti And Spearhead, Cool Water

cool water
coming down
on this head of mine
cool water
feels like rain
in the summertime
my woman is a friend of mine
she likes to dance like a sparkle when we're all alone
just like jasmine blooming
she's my springtime woman
she makes me smile when i'm feeling low
she's like cool water
coming down
on this head of mine
cool water
feels like rain
in the summertime
i don't go looking
looking for trouble
but sometimes trouble comes follows me
when my eyes are tearing
she collects every drop
and she uses them to water all my dreams
she's like cool water
coming down on this head of mine
cool water
feels like rain
in the summertime

she don't stop now
'til the very last drop now x3
she just keeps on loving through, yooohoo x3

she's like cool water
coming down
on this head of mine x3
