

Michael George, Safe

Sweet thing
I know how strong I can appear
But you don't know the days
Since somebody loved me
You came
And led me through that door again
You say you want to stay
But you don't know me (no you don't)

You make me feel safe

Someday
My darkest fears will find their way
After all
Somebody loves me
All day
My heart tells strangers how I feel
And it's hard not to feel this way
When you thought your future was on prescription

You make me feel safe
