Michael Jackson, Music And Me

(Jerry Marcellino, Mel Larson, Don Fenceton & Enceton & Cannon)

We've been together for such a long time now Music, music and me Don't care wether all our songs rhyme Now music, music and me

Only know wherever I go We're as close as two friends can be There have been others But never two lovers Like music, music and me

Grab a song and come along You can sing your melody In your mind you will find A world of sweet harmony

Birds of a feather will fly together Now music, music and me Music and me
