## Michael Learns To Rock, She'll Be Mine

(Music and Words: Jascha Richter)

Nothing's gonna change it now - all right She can't be bad She drives me mad In my head She's one of a kind So I don't mind - I don't mind 'Cause she's so cool Nobody's fool She has got her own set of rules And I have been waiting - waiting for her

When she comes I hear her say Hold me close - we'll drift away All right - nothing's gonna change it nothing's gonna change it now She's so fine She'll be mine Forever and ever All right - no one's gonna break it no one's gonna shake it now She's so fine She'll be mine

She might have thorns She's never worn Not for me But when we're close I just sense the smell of a rose It might be wrong It might be right But I give up without a fight 'Cause I have been waiting - waiting for her

When she comes I hear her say Hold me close (to night) - we'll drift away (we'll drift away) All right - nothing's gonna change it nothing's gonna change it now She's so fine She'll be mine Forever and ever All right - no one's gonna break it no one's gonna shake it now She's so fine She'll be mine All right - nothing's gonna change it nothing's gonna change it now She's so fine She'll be mine All right
