

# Michael McDonald, By Heart

(Michael McDonald/Chuck Sabatino & David Pack)

Girl, they ain't no way out  
When something is meant to be  
Darling, there ain't no doubt  
I'm right where I want to be

So everything you see as the end of our road  
I see as only a start  
This ain't no time to stop before we begin  
And though there's no promises

[Chorus:]  
Everytime I think how good it could be  
I start to believe it's up to the stars  
I should use my head  
But that only tends to lose me and confuse me  
Everytime I think how good it could be  
I surely believe we'll make it that far  
I should use my head  
But I only know you by heart, by heart

Girl, I know I'm in  
Over my head  
But now I need to find out  
Just what you want from me

And if I'm reaching too high, you know we live and learn  
That's all it takes in this life  
I can't be overly cautious where love's concerned  
I know there's no promises

[Chorus]
