

Michael McDonald, To Make A Miracle

(McDonald/Harris)

How many would believe
That a lamb lost unto this world
Would be the victory that we need
As he lay beneath the shining star
Chosen before time began
Eternal love from our father

It takes a miracle
To the world it is impossible
It takes a miracle
To the mind it is illogical

[Chorus:]
A world in need
A heart in chains
That's all god needs
To make a miracle
A soul ashamed
A life of pain
That's all god needs
To make a miracle

How does a wise man know
That it's not just another star
How do I chose to follow
What speaks unto my heart

It takes a miracle
How sweet the sound my father's voice
It takes a miracle
This holy night we will rejoice

[Chorus]

This time has come that we might know his way
In this world a need to find our faith
To understand what we know nothing of
We lead the faith to understand the power of love

It takes a miracle
How sweet the sound my father's voice
It takes a miracle
This holy night we will rejoice
