

Michael Stanley, Any Other Fool

I hope you got your reasons
For being here like this
Cause your making me crazy
There was always somethin'
Somethin' when we kissed
That never ceases to amaze me

(CHORUS)

And, any other fool
Would try to find a way around you
Any other fool
Would turn and let you be
And, any other fool
Would take this love back where they found it
Any other fool but me.....

Everybody's talkin'
Cause everybody knows
Your the reason I'm cryin'
Cause after all I still love you
I guess sometimes it shows
No matter how hard I'm tryin'
Hey Baby!.....

(CHORUS)

And, any other fool
Would try to find a way around you
Any other fool
Would turn and let you be
And, any other fool
Would take this love back where they found it
Any other fool but me.....

You know there was a moment
I thought maybe someone else could
Take this heart
Get it thru another day
But now I'm holdin' you
And all my good intentions
Are just slippin'
Away...
Hey yeah!.....

(CHORUS)

And, any other fool
Would try to find a way around you
Any other fool
Would turn and let you be
And, any other fool
Would take this love back where they found it
Any other fool

Any other fool
Would try to find a way around you
Any other fool
Would turn and let you be
And, any other fool
Would take this love back where they found it
Any other fool
But me.....
Any other fool
But me.....
Any other fool.....
