

# Michael W. Smith, A Matter Of Time

If I could, I would tell you why  
The first time I saw her I could touch the sky  
I turned to stone, and I could not speak  
She had the ability to make me weep

Chorus:

Always wishing, always hoping  
That she'll get the message from the bottom of my heart  
Let's together share forever  
It's just a matter of time

I had to wait and just let her breathe  
That's never been easy for a man to see  
She moved slow and she took her time  
She kept me guessing what was on her mind

Chorus:

Always wishing, always hoping  
That you'd get the message from the bottom of my heart  
Let's forever be together  
It's just a matter of time
