

# Michael W. Smith, First Light / Love In The Light

Darkness thick and heavy,  
Black and steady screaming darkness  
Anyone who hates his brother,  
Who plans evil for another  
Walks in darkness

Sonlight, warm and shining,  
Purifying, welcome Sonlight  
Everyone who loves completely  
With a heart that opens freely  
Walks in Sonlight

Chorus:

Let us love in the light  
For love is from God  
If we love what is right  
We show whose we are  
In a world of the dying  
We're living our parts  
If we love in the light  
With all of our hearts

Blindness, terrifying, left for dying, spirit blindness  
Anyone who thirsts for evil plots  
His very own upheaval  
Lost in blindness  
New sight, truth unending, faith unbending, new sight  
Everyone who seeks the father leaves the world  
And all its bother  
Sees with new sight

Chorus
