

Michael W. Smith, Move In Me

I am only human
Struggling to find
Confidence in all that I believe
You are only holy
You are love defined
And you have said to ask and I'll receive

So I have come to pray
That you will come and fill
The hunger here inside me to grow
Stronger in the faith
There's a longing and a need
To have you ever closer
Come fill me

Cause when you move in me
It's like a symphony
The timeless melody
That soothes my soul
Though silent I can tell
That you're alive and well
Cause I can feel you move
In me

What they try to tell me
Is that your love is false
What they try to tell me
Is that Your is false
And faith is just a way
I choose to feel
And that there was no meaning
To You upon the cross
And I should reach for something that is real
And when those words are said
The questions in me start
And I don't have any answers
Until I stop thinking with my head
And start listening to my heart
And there I find my assurance
I tell them

Chorus
