

Michael W. Smith, Restless Heart

Words & Music: Amy Grant and Michael W. Smith

On the street it never changes
There's a chill in the air
Icy people, empty faces
Not a word, not a soul who cares
Do you give up
Have you given in to the lie that a heart never changes
Don't be fooled by what you see there
Another man with another case of
Chorus:
One restless heart
Who never could find love
Too many hurts
To reach out again
How can he know
Love still wants to find him
One restless shell of a man

Don't look away
In a moment his life could be new
Just a moment and love could break through
Oh finally some place to start
For a man with a restless heart

Why the fear then, why the worry
Why the walls holding love inside
When you're needed in the fury
In the fighting to save men's lives
Don't you give up
Don't be giving in to the lie that a heart never changes
If you reach out God'll reach in
Bring an end to another case of

Chorus

One restless heart, one restless heart
One restless heart, one restless heart
He's got to know that love still can find him
Love can reach any man

Don't look away
In a moment his life could be new
Just a moment and love could break through
Oh finally some place to start
For a man with a restless heart
