

Michale Graves, Earth Versus Spider

Fifty tons of black creeping horror
Oil in the ditch, a trunk on fire
Deep dark cave of secrets
Terror, death and thrill
The threat that we must face
Is getting larger and larger
Threat is getting larger

We all must go inside
Where we first found this web
Shot up with DDT
It rolls over dead
Rock 'n' roll brings life again
Larger and larger
The spider's getting larger

We are hiding from the insects
We are tangled in the webs of giant
Spiders that sense our fear
And hunt us like we're prisoners
Tangled in this mess of web
Earth versus spider
