

Michelle McManus, Invincible

I'll never be a hero
I'll never change the world
And I can't stop the hands of time
Or touch the sky
But when you're near me
Feels like nothing's gonna hurt me
There's not one thing I can't do
When I'm with you

I know I'm not made out of stone
I'm not made of steel
I'll never be a super hero even in my dreams
But when you look at me
I am invincible

I don't possess the powers
To turn night to day
And I can't, I can't stop the rain
Make seasons change
But when you're near me
Feels like nothing's gonna stop me
And in that moment in time
The world is mine

I know I'm not made out of stone
I'm not made of steel
I'll never be a super hero even in my dreams
But when you look at me
I am invincible

I'll never conquer the world
Won't make history
I will never live forever
That will never be
But when you look at me
I am invincible

I am strong
But all the strength that I possess
Is all because of all the love and tenderness
That you bring me
You make me feel I can do anything

I know I'm not made out of stone
I'm not made of steel
I'll never be a super hero even in my dreams
But when you look at me
I am invincible
