

# Michelle McManus, The Meaning of Love

To many roads, dead-end streets.  
I lost my way endlessly  
Looking for something to restore my faith  
And give me the strength to fight again

To many words hit me hard  
Coz' they never meant what they said they would  
I have been taken, and broken, abandoned alone  
I guess I was resigned to give in

Bridge  
The very first time that we met I knew  
I believed in you  
I was lost and you gave me direction again, yeh

Chorus  
Just when all hope had gone  
Just when i needed someone to give me love  
You came and rescued me, yeh  
You showed me right there  
Just what I've been waiting for  
Lifted me up  
Guided me out from the dark  
Just when i needed it most you show me The Meaning of Love

As tears go by, I can say  
Theres nothing i miss by the crying game  
My heart beats like its still reeling  
I know i can feel it  
I've got the strength to fight again

Bridge  
The very first time that we met I knew  
I believed in you  
I was lost and you gave me direction again, yeh

Chorus  
Just when all hope had gone  
Just when i needed someone to give me love  
You came and rescued me, yeh  
You showed me right there  
Just what I've been waiting for  
Lifted me up  
Guided me out from the dark  
Just when i needed it most you show me The Meaning of Love

Get a zoom on my face  
Standing here, crooked smile you put it there  
Theres no doubt in my mind  
Now you've found me I'm whole again

Chorus  
Just when all hope had gone  
Just when i needed someone to give me love  
You came and rescued me, yeh  
You showed me right there  
Just what I've been waiting for  
Lifted me up  
Guided me out from the dark  
Just when i needed it most you showed me The Meaning of Love  
Just when i needed it most you showed me The Meaning of Love

Just when i needed it most you showed me The Meaning of Love
