

Michelle Shocked, I Know What You Need

Long before you were thirsty
I planted a tree
Beside bitter water
And it made the water sweet
It grew and made the water sweet

Before you ever knew hunger
I planted a seed
You can trust me, darling
I know what you need
I know what you need

You can rest
Your weary head
Upon my breast
I know what you need

And when you close your eyes
I hope you can see
The picture of love I've painted
It's a gift to you from me
A gift to you from me
