

# Michelle Williams, Heart To Yours

Before time was  
You were  
And when it's over  
You will be  
My everything  
You fulfill my needs  
And every morning  
You are the song I sing

You are everything to me  
You're in every breath I breathe  
All of the love I ever need  
From my heart to Yours

You are in everything I do  
That's why I keep running to You  
All of the words I say are true  
From my heart to Yours

Before You created heaven and earth  
You held me in Your heart  
You saw mistakes that I would make  
And You planned ahead a road for escape

You are everything to me  
You're in every breath I breathe  
All of the love I ever need  
From my heart to Yours

You are in everything I do  
That's why I keep running to You  
All of the words I say are true  
From my heart to Yours

I just wanted to tell You  
How I feel  
From my heart to Yours  
Oh I love You  
Yes I do  
Because You showed Your love to me  
You gave Your life  
It was the ultimate sacrifice  
And You did it all for me

You are everything to me  
You're in every breath I breathe (You're every breath I breathe)  
All of the love I ever need  
From my heart to Yours (from my heart to Yours)

You are in everything I do  
That's why I keep running to You (I keep on running to You)  
All of the words I say are true  
From my heart to Yours

And I love You, I love You - (You are everything to me)  
I love You - (You're in every breath I breathe)  
(All of the love I ever need)  
(From my heart to Yours)

I thank You for You loving me - (You are in everything I do)  
(That's why I keep running to You)  
I thank You for You saving me - (All of the words I say are true)  
(From my heart to Yours)

You are everything to me  
You're in every breath I breathe  
All of the love I ever need  
From my heart to Yours

You are in everything I do  
That's why I keep running to You  
All of the words I say are true  
From my heart to Yours
